Follow Up to:

The Ethics of Health and Patient Advocacy (801)

You can view and download all three organizations' ethical statements:

www.NAHAC.com

www.HealthAdvocateCode.org

www.PACBoard.org

Core Values

All ethical statements in all three existing codes of advocacy ethics stem from one or more of these values:

- ◆ The Role of an Advocate
- ◆ Transparency
- ◆ Competency
- ◆ Avoiding Conflicts of Interest
- ◆ Client-focus
- ◆ Professional Development and Profession Support

If you aren't sure whether you're being asked to do something that would be considered unethical, there are three ways to figure it out on your own:

- Check out the ethical statements made by one, two, or all three ethical codes linked above.
- Put it to the Momma Test
- Test it with your Gut Check
